AutoCAD Help AutoCAD is a powerful drafting tool. Although it lacks the bells and whistles of its competitors, AutoCAD is not easy to master. If you are just starting out with AutoCAD and need a gentle introduction, the "Learn to Draw in AutoCAD" book provides a brief but thorough introduction to the basics of using AutoCAD. If you're a novice user, there is a wide selection of AutoCAD tutorial and training videos to help you learn AutoCAD at the AutoCAD University website. From the section Football Bolton Wanderers have reached the FA Cup fourth round for the first time since 1968. Goals from Andrew Ayew, Michael Jacobs, Kevin Davies and substitute Kristian Pedersen sealed the four-goal rout of Luton. Paddy McCourt also scored as fellow home side Stevenage suffered a shock 3-1 second-round replay defeat at Coventry City. The other third-round games went to replay also on Monday night. FA Cup records and details Plans to give replays in the FA Cup fifth round, involving at least two teams from the top four tiers of English football, have been drawn up. In the 2009-10 competition, six games were replayed. The first two were at Wolverhampton Wanderers and Cardiff City, with the following four replayed at Milton Keynes, Peterborough, West Brom and Barnsley. The FA also sought to make sure the competition was played as scheduled, including the earlier kick-off times. The Football Association said it was to encourage its four top professional divisions to reach the quarter-finals of the tournament. The home side, who were facing their first FA Cup third-round home tie for five years, were already assured of a place in the last eight. Ayew, 19, came off the bench to score in the 66th minute and then was handed the captain's armband as Wanderers strengthened their grip on top spot in League One by eight points. The Gunners' Robert Huth was sent off for a second yellow card after just 22 minutes and Davies made it 3-0 just six minutes later. Substitute Pedersen's header made it 4-0 in the 86th minute, but despite winning the penalty for Davies' second goal, the 21-year-old's shot was saved

## **System Requirements:**

REQUIREMENTS: A fan-favourite graphic adventure from Monkey Island creators Ron Gilbert, Tim Schafer and Greg Wohlwend! Due to the scope of this game, we feel it is best to recommend 2 PCs at minimum. The game requires 4GB RAM to run, along with a GPU that is powerful enough to handle most of the graphical effects and visual fidelity. For this reason, some of our reviews say a gaming PC with 8GB RAM, and a GTX780 or an R9 270X, as a minimum requirement, are recommended.
