

Science Forum SOUTH AFRICA

6 – 8 DECEMBER 2023, PRETORIA

SAVE THE DATE

Dear Stakeholder

The [Department of Science and Innovation](#) invites you to save the date for the upcoming Science Forum Africa (SFSA) 2023, which will be held from 6 to 8 December at the [CSIR International Convention Centre](#)

The theme for the Forum is **Igniting Conversations About Science – People, Partnerships, Priorities Decadal Plan.**

The objective of the Forum is to ignite a vibrant discussion on the role of science in society, between all stakeholders, the scientific community, government, industry and civil society at large.

The Forum programme will comprise of plenary lectures and discussions by and involving leading South African and international scientists, experts and thought leaders.

An exhibition will also be hosted at the SFSA, with key institutions and partners of the National System of Innovation.

A series of side events in the lead up to the SFSA will be convened from 4 to 5 December 2023.

The Forum is proudly hosted by the Science Diplomacy Capital for Africa ([SDCfA](#)) initiative.

Please diarise the dates. More information will follow soon.

Respectfully yours,

Daan du Toit

Deputy Director-General

International Cooperation and Resources

Department of Science and Innovation
