Scope and aim of the workshop

The workshop seeks to provide a balanced discussion platform focusing on:

- Contextualising the Just Transition (towards a system change),
- The Economics and Science of the Transition and Employment – Policy Perspectives for Impact,
- Civil society engagement and perspectives on Just Transition,
- National System of Innovation Challenges of Just Transitions.

Just Transition encompasses the need to shift from a high-carbon to a low-carbon economy.

The Transition must be inclusive, ensuring that vulnerable populations are not adversely affected.

Just Transition is pertinent to South Africa where high unemployment and job losses are a critical concern.
