

INVITATION

Public Lecture

*From Quantum Science to
Quantum Industry:
Building Scalable Technologies
for the Next Computing Era*

Thursday, 21 May 2026

11:00

G-19 Auditorium, Building 13,
Pretoria West Campus, Tshwane
University of Technology

The Department of Science, Technology and Innovation, the Embassy of the Republic of Korea in Pretoria and Tshwane University of Technology are co-hosting a public lecture on the relevance of quantum technology for industries worldwide. Prof. Donggyu Kim, Assistant Professor of Physics at Korea Advanced Institute of Science and Technology, will discuss the key challenges to linking frontier research with industry in quantum computing and other quantum technologies, which requires interdisciplinary solutions from physics, engineering and computer science.

To RSVP or for enquiries, please contact Mr Mpho Mathonsi at Mpho.Mathonsi@dsti.gov.za.
